BEFORE INSTALLATION

Important information
Read carefully

This guide explains how to install Parsys Array. All warnings and cautions should be followed. Installation must be performed by qualified electricians in accordance with national and local electrical and building codes.

INSTALLATION INSTRUCTIONS

I. Ceiling Installation instructions

1. Ceiling Installation instructions (Version I)

II . Interconnection Instructions

III . Interconnection Overview

IMPORTANT

- The Lamp must be oriented with the light shining downward, and not upward or to the side. Damage to the lamp fixture caused by heat radiation when operated sideways or upside down is not covered by the warranty.
- Be sure that the stainless clips are installed securely to prevent the lamp from coming loose and falling.
- The light source (LEDs) are not serviceable or replaceable.
- Do not modify or alter the product as this will void the warranty.
- Do not turn on the power until installation is completed.
- Use a junction box with IP level IP66.
- Disconnect the power supply before installation. Installation must be performed by qualified electricians in accordance with national and local electrical and building codes.

Do not touch the lamp while it is operating. Before touching the lamp for any reason, disconnect the power supply and allow the lamp fixture to cool down completely.

SECONDARY RISK: Do not look directly at the light source to avoid eye damage or discomfort due to the brightness of this lamp fixture.
